OUR SPRING MILLINERY

This would not be the M. E. KILLEAN CO., LTD., did we not out-distance not only all outside, but all our own previous showings in the way of Millinery.

This season our success is very marked. We have brought Hats from the greatest Fashion centers; smart bright, unique, full of color, richness. Honolulu women are among the best dressed in the world. They set the stamp of their approbation upon the M. E. KILLEAN CO., LTD., Millinery.

NO TWO HATS ALIKE.

All have but one point in common, namely the dash, the style, the uniqueness that sets them above all other efforts in Honolulu.

Take it all in all, there has never been a Millinery display so fraught with interest to the feminine heart that loves the coquettishness of a lovely hat.

Bring your friends with you.

Submits its
Report.MANY THINGS
YET TO BE DONECompletion of Sewerage System
Urged—Board Wants Hospital
and Steam Vessel.

The Board of Health supplemental report from November 10 to February 1, 1901, has just been published and contains an interesting budget of statistics concerning the work handled and planned by that body.

The report comprises that of J. S. B. Pratt, executive officer, for the seventeen-day period subsequent to the resignation of Dr. Wood, when the Board was temporarily without a president, the sixteen days' executive of E. C. Winston, with the report of J. H. Raymond, the present head of the Board.

Until the installation of the latter official the principal matters taken up were the condemnation of the Chinatown block bounded by Beretania, Nuuanu, Kukul and River on account of its low level and insufficient drainage, the reduction of prices at the leper settlement stores to cost values, the resolution to publish the names of manufacturers and local dealers of adulterated foods and the prosecution of the latter where a sale could be proven.

Since December 12 the Board has held six regular and two special meetings. The most important matters dealt with since then have been as follows:

A resolution was passed prohibiting the use of fire arms or spirituous liquors to lepers, except as the latter may be required for medical purposes, passed on account of the rapid increase in the importation of these articles.

A building for a leper boarding house at Kalawao at a cost of \$1,700 is being erected. The health of the settlement is reported fair. Regulations have been drawn to prevent personal contact between lepers and untainted visitors.

In Chinatown the Superintendent of Public Works has been recommended to fill up the blocks bounded by King, River, Hotel and Kekaulike streets; Hotel, River, Pauahi and Maunakea; Pauahi, River, Beretania and Maunakea.

A stagnant pond makai of St. Louis college and mauka of Beretania street and another stagnant pond makai of property leased by Cross Bros. and adjoining the O. R. & L. Co.'s shops.

Property leased by Mr. Winam was ordered placed in sanitary condition or the alternative of vacation, the latter measure being adopted.

Relief camps one and two were requested to close on account of insanitation.

The volunteer commissions issued during the epidemic were cancelled.

In order to improve, without extra expense, the records of vital statistics, the duties of Government physicians were investigated and changed so that now they have to perform the duties of registrars of births, deaths and marriages and conduct post-mortems in all cases of unattended deaths where the cause of death is not clear and without extra compensation except in exceptional cases.

At a meeting held December 19, 1900, a new plumbing inspector was appointed, Mr. E. G. Keen, and at a later meeting Mr. J. F. Kiernan was appointed his assistant.

During the months of November and December there were 159 plans filed to do plumbing work and the same number of permits granted.

The number of inspections made was 448.

Final certificates given, 185.

The plumbing regulations were investigated by a committee consisting of Mr. Edwards, sanitary engineer; Mr. E. G. Keen, plumbing inspector; Dr. J. S. B. Pratt, executive officer, and the president of the Board.

Meetings were held with the master and journeymen plumbers and a number of amendments adopted.

A committee was appointed to draft a report for the Legislature in the matter of deaths from methylened spirits. The offices of city physician, veterinarians and bacteriologist were declared vacant and reorganized. Two physicians, to share the duties, were appointed at salaries of \$100. One veterinarian at a salary of \$200, was appointed, in place of two, the office of bacteriologist being left vacant.

The food commissioner is reported as hampered in his work by defects in the laws relating to adulterated foods. Sixty-one milk samples were analysed in November, two cases of adulterations prosecuted. In December seventy-eight samples were handled, thirteen found found below the average. Bona fide sales not being proven, the prosecutions were made. Names and data were published. The city physician visited 412 outside patients; 2,269 patients were treated at the dispensary; nine patients sent to the hospital; 1,113 prescriptions filled.

In November and December 172 microscopic examinations were made, also forty-two cultures. Fifty-two visits were made to Kalia Receiving Station.

Animals examined by inspectors during November and December were 4,083, and four carcasses were condemned, also two tubercular cattle destroyed. Number of fluke livers, 235.

Fish examined in the same period, 408,489, and 6,411 condemned.

Section 12 of the Sanitary Code was amended to require permission from an agent of the Board of Health before a body might be buried upon the islands of Hawaii, Maui, Kauai and Oahu.

The danger from Chinese eggs imported in soil was considered properly attended to by the U. S. M. H. S.

Notices were distributed to every owner of a tenement, lodging house and hotel calling attention to section 760, chapter 55, of the Penal Laws, pp. 4, 5 and 6, and section 761, with notice of prosecution for violation. Also notices to be posted in each room of paragraph 4, section 760, and section 942, with the penalty for violation.

It was "Resolved, that no permit for

interments shall be granted within the city limits except to those already possessing burial plots, and not to the owners of such plots, to the jeopardy of the public health."

The city sanitary officer has investigated eighty-six buildings, permits, made 53 inspections, located thirty-one cesspools.

The inspectors have reported 2,148 nuisances and violations of regulations, 1,342 of which are already abated, the balance being duly looked after.

Many connections of sewerage have been made. In November and December, 426 cesspools were pumped, 232 scow loads taken to sea, 1,133 loads of garbage burned. Eleven excavator carts are working.

Recommendations have been made concerning the garbage and excavator service, concerning containers for householders, and the leasing of the service to private contractors under the supervision of the board. The expenses for 1900 were \$65,866.13. Improvements and enlargements are advised.

Recommendations have been made concerning the garbage and excavator service, concerning containers for householders, and the leasing of the service to private contractors under the supervision of the board. The expenses for 1900 were \$65,866.13. Improvements and enlargements are advised.

A cubic air law for dwelling houses is recommended, also a heavy penalty for default to give full information of every death, birth and marriage to a registrar of the Territory. The matter of filtration of the reservoirs is urged. An appropriation is recommended for a home for non-leprosy children. Repairs to the government laundry are urged.

It is asked that the building laws be changed to allow the Board of Health to have power over building permits, and that the coroner be under the board and post-mortems held in the morgue connected with the dispensary.

An increase of from six to ten sanitary inspectors is recommended; also, others for Maui, Hawaii and Kauai.

The extension of the sewerage system to all portions of the city is urged. An appropriation is asked for money to build a fire-proof vault in which to keep the records of the board; also, an appropriation for a steam vessel for Leper Settlement service.

The board strongly recommends the erection of an emergency hospital to be built at the corner of Queen and Milliani streets. An ambulance is included in the plans, which are already drawn, a separate building for a morgue, and a room and yard for animals used for experimental purposes.

The recommendations call for \$50,000 for a building, and \$25,000 for equipment, the collection of freight and the carrying of lepers.

The statement of the cost of the camps during the epidemic is submitted, totalling \$625,000, made up of the following amounts:

Pesthouse	\$11,891.28
Battery Camp	21,868.55
Kerosene Warehouse Camp	52,870.31
Drilled Camp	25,801.89
Kalihi Detention Camp	262,464.56
Temporary camps at Kawai- ahao, Gilman's House and Hackfeld's Warehouse	10,359.97
General sanitary supplies	4,485.86
Citizens' committee	1,521.88
Merchants' committee	13,988.52
Guards	59,947.73
Military	7,753.94
Fire Department	2,435.16
General Board of Health	57,529.69
Hilo Board of Health	2,567.35
Maui Board of Health	23,121.41
Kauai Board of Health	444.00
Appraisers and legal	4,906.35
Finance committee	1,941.65

The report of the medical superintendent of the Insane Asylum is appended. The report contains full details of the history and statistics of the insane of the Islands from the foundation, in 1882, to the present day. The ratio to population for 1901 is 1 to 1,000.

Tabulated accounts for the past five years are shown of the nationalities, admissions and death of inmates.

The report closes with the expenses incurred, the appropriations voted, and their expenditures and appropriations proposed for the last two years, also the government realizations for that period. The amount of the appropriations is noted as approximate.

THE LEAGUE
AND LIQUORProtective Organization Seeks
Amendments in Dispensary Bill.

The Honolulu Protective League took action last night at the Young Men's Christian Association, on the dispensary bill, and will report favorably on the same with several recommendations and modifications, which the league believes will benefit the measure.

A committee of three, consisting of Rev. George L. Pearson, of the Methodist Church; Rev. W. D. Westervelt, of Kawaiahao Church, and Theodore Richards, was appointed by President W. A. Bowen to present to the supporters of the measure in the Senate the results of the deliberations of the league, and will do so today.

The meeting last night was attended by W. A. Bowen, president; D. H. Case, secretary; Rev. W. D. Westervelt, Rev. G. L. Pearson, Lorrin Andrews, A. F. Cooke, Mr. Leaningham, H. C. Coleman, Rev. C. Gulick, Theodore Richards, E. H. Shanks, while Rev. A. E. Cory and a few others sent in their proxies.

The greater part of the evening was taken up in the discussion of four leading questions in the dispensary bill brought out by Rev. G. L. Pearson. These were: (1) Dispensaries; (2) no dispensaries; (3) less dispensaries; (4) no change.

Mr. Pearson showed that when the time came for counting the votes of the people of any precinct upon any of these questions, it was a likelihood that no decision would be reached even though the precinct voted year after year. For instance, if there were 1,000 persons voting, 500 voted in favor of dispensaries; 50 for no dispensaries; 75 for less dispensaries, and the balance for no change, no decision would be reached. The provision in the bill for a majority vote on such questions should be changed. Lorrin Andrews suggested that the simple substitution of the word plurality for majority would set the matter right, and the suggestion was adopted by the meeting.

Again, it was pointed out that under the provisions of the measure which provides for the wives and daughters of qualified voters in the same precinct voting upon the same measures with the men, there would be considerable difficulty, as none of the women were registered for voting. As to the males, they could vote on the registration of the last Territorial election. As the women have not registered there was no way of telling whether they were bona fide voters. It was suggested that all such unregistered bona fide voters go before a judge and make affidavit of their present residence and right to vote, any violations of the same being punishable under the perjury law.

"Dispensaries, yes; dispensaries, no; let that be the vote," said Mr. Pearson, which is clear cut and there can be no mistake on the part of any one.

The discussion on the bill partook of the nature of a criticism of certain features of the bill which the league members were of the opinion should be corrected before its passage, or the purposes of the measure would be defeated in many instances. The question of the sale of liquors in hotels and restaurants was threshed over. It was believed by some that this opened the way for the establishment of dozens of so-called coffee-shops and restaurants all over the city and in all precincts where the people voted in favor of dispensaries. Furthermore, it was objected to on the ground that although one precinct had dispensaries and the next one had none, liquors provided for consumption in restaurants would be passed from one to the other.

Discussion was had on the question lately raised that the dispensary system would incline the people to the "bottle habit." It was thought, however, that as for the Hawaiians, at least, the "bottle habit" would not obtain under the new system, as it would be a cash system altogether. Under the old system it was stated that the saloons allowed the Hawaiians to contract large bills, and let them buy as many bottles as they desired, until what property they had was eaten up by these bills, and then their credit was no longer any good. Under the dispensary system it is thought by the league that as cash must be paid in all instances for liquors, the "bottle habit" will not be so strong as in the past.

The recommendations which the committee will present to the Legislature were read last night in rough draft. They will be brought together in presentable form and given into the hands of the bill's supporters, with the Protective League's recommendation for its passage.

SPECIAL TRIAL JURORS.

Men Selected to Serve on Jury in
Gear's Court.

Trial jurors for the Special April term of the Circuit Court which opens this morning in Judge Gear's court, are as follows:

G. P. Dennison.
Jos. Lightfoot.
Arthur Coyne.
Wm. S. Ellis.
F. W. Weed.
Albert Trask.
Isaac Adams.
Wm. Mahuka.
R. N. Harrison.
T. R. Mossman.
Martin Bowers.
W. H. Smith.
Husto De La Cruz.
Isaac Harbottle.
F. S. Lyman, Jr.
J. H. Lichtig.
Louis Schwelzer.
C. J. Hutchins.
M. W. Parkhurst.
Capt. Isalah Bray.
F. W. Damon.
P. E. R. Strauch.
C. J. Ludwigen.
Chas. Bon.
J. J. McDonald.

The jurors have been summoned to appear at 10 o'clock this morning.

The Board of Health has sent on the road to recovery and are excellent spirits. Dr. Pratt states their fever has abated and that they will probably get well. He says that the recovery of the rate inoculation does not necessitate that there was no plague.

Richmond, Va., has had a magnificent Jefferson burned to the ground.

After Easter Bargains

To sell people things they don't want requires one of two things—rascality or genuine cheapness.

No one realizes that better than we. You bought heavily here last week—more than you have bought any since Christmas. Therefore you must have almost supplied your immediate wants. So things must be cheap indeed to make you care to buy more. THERE ARE.

What there are, are in small lots only—lots we shall be glad to clear away for little money and no profits. But there are golden opportunities for Easter buyers. The movement affects all departments, but there are a few that justify advertising:

\$1 Shirt Waists, 25c.
Both white and colored; all have been a dollar or more; you know our Dollar Shirtwaist. What are left 25c**Ladies' Leather Belts, 10c.**
White Kids, Blacks and Tans; Silver trimmings in scrolls and nail-heads; a real bargain in stylish, serviceable Belts 10c**Fancy Colored Petticoats, 50c.**
Handsome shades; cut full with accordion pleated tucks and dust ruffle; extraordinary price 50c**School Handkerchiefs, 5c.**
Many different sizes and qualities; Hemstitched, lace-trimmed, fancy corners; a good opportunity to lay in a supply against the new school term; all at 5c**Ladies' High Stock Collars, 25c.**
Silk Crepe, Chiffon and Velvet effects; absolutely worth 75c 25c**Turkish Bath Towels, 15c.**
Not the kind that is manufactured for appearance, but a towel that made for wear and hard usage; the warp is double threaded, the nap close and solid; size 41x22 inches on special sale 15c**Linen Collars, 5c.**
Broken lots, all styles, Men's, Boys' Ladies'; while they last 5c**New DIMITIES, 15c.**
Quality extra; colors fast; patterns dainty; styles beautiful 15c**Mens' Balbriggan Shirts and Drawers, 25c.**
Made to retail for the summer season for 75c; could not be had in New York for this money; three pieces for \$1, or each 25c**Mens' Club Ties, 25c.**
A small lot, but newest styles; two to a customer 25c**Mens' Golf Shirts, 75c.**
Some \$1, some \$1.50 kind 75c

EXHIBIT FROM
ISLAND SCHOOLSWhat Islands of Hawaii Will
to the Pan-American
Exposition.

The contribution of the Hawaiian schools to the Buffalo Exposition now displayed in the rooms of the Board of Education, and will exhibit one of the best and most complete exhibits at the big fair. The islands all the work exhibited is peculiarly Hawaiian. Bowls of koa wood, made and carved in pretty designs with lettering in lighter woods such words as "aloha" have been contributed from the training schools of the neighboring islands, and a five by three feet sewing cabinet, fully put together, bears witness to the cleverness of a fourteen year old pupil of Maui, in the line of carpentry. Baskets and mats of native work, Hawaiian hats, leis, bead work, paintings, and drawings of men of kindergarten sewing were pupils of the public schools, make up a most interesting and did exhibit. One of the specimens will certainly attract much attention. It is a portrait of "Job's Tears" cleverly put together by the pupils of one of the schools, and are excellent samples of the work drawn work done by the little children under the direction of their teachers.

Aside from the interest, and the exhibit itself, the contribution of the islands to the Pan-American exposition is of the variety of races represented by the tags that are attached to the exhibits. Portuguese, Japanese, Hawaiian, Chinese children of ages from five to fifteen have worked on the exhibit, and work that would be a credit to the children of the United States. It is safe to say the exhibit will carry away a prize.

The schools of all the islands and group are represented.

Rats Will Recover.

The Board of Health has sent on the road to recovery and are excellent spirits. Dr. Pratt states their fever has abated and that they will probably get well. He says that the recovery of the rate inoculation does not necessitate that there was no plague.

Richmond, Va., has had a magnificent Jefferson burned to the ground.
